This is a pure circus show in which risk, tension, ability, humour and participation of the audience merge in extraordinary acts of clowns, equilibrium, aerial acrobatics and juggling. An enchanting proposal in the form of a 21st century open-air venue and a clever show full of rhythm and complicity with the families in the audience. A lovely truck serves as the central circus ring, from which a framework is unloaded to create our open-air circus…a circus that is outgoing, sincere, open, free and friendly.

"If you could look back, what would you change? What would happen if we had the chance of changing things we've done? Every day we have new opportunities to change, and as artists we are also going to change right now.
With our company's new show, we are going to speak about…the body… the goals attained 20 years later…the ideals we still have 20 years later…what the future….in 20 years…looks like 20 years later.
Of course we are going to speak about…the present, what to expect, the need to change, about you and us…about art, dance…
This is not just another show. This is 20 years of shows!" Fernando Hurtado
