This is Carlos Bianchini's second show for family audiences, in which the pianist and composer will perform a selection of his work for piano, this time in a staged dialogue with physical theatre performed by Arnau Lobo.
A show-concert full of laughter and "crazy tenderness". A different show, without words: a forgotten piano comes back to life thanks to the imagination of a clown and a pianist.
Passionate, creative and multifaceted, Carlos Bianchi is devoted to the dissemination of this work through different concert programmes, stage proposals, and original, multifaceted pedagogical projects in which he collaborates with artists from different disciplines.
