The *zambomba* is a Christmas show that originate in gatherings and in the common courtyards where families shared, in a very spontaneous manner, food, songs with popular lyrics and hand clapping. In a *zambomba flamenca* Andalusian Christmas carols come to life adapted to the different styles of flamenco, such as *bulerías, tangos, rumbas*, etc. The staging, the art and passion of the gypsy families who share their common feelings about the Christmas festivities are the true reflection of an ancestral tradition that is renewed every year.
The Company of Antonio de Verónica and Saray Cortés is rooted in the purest tradition, technique and music of flamenco art, perfectly complemented with the choreographies and creative content of each one of its shows. The company has shared the stage with Antonio El Pipa, Antonio Canales, La Farruca, Estrella Morente, Farruquito… and has toured with great success the theatres of Spain and of other countries including Germany, England and Argentina..
