Vangelis' universe is, inevitably, part of our lives. It is impossible not to recognize the iconic themes of his works (*Blade Runner*, *Chariots of Fire*, *1492*), but at the same time, his figure is remembered as one of the most innovative in the field of atmospheric research and the electronic avant-garde. "Universo Vangelis" is a tribute to the composer and pioneer, to his ability to capture emotion in his music. On this intense journey we'll be carried away by the essence to build a show based on its live music, symbolic bodies and visual resources. A scenic tribute to the human condition
