It's clear: if there's confetti, it means that Francis Zafrilla has been here. Francis Zafrilla and confetti always go hand in hand: with the former's energy, madness and passion, they have created a new show adapted to new technologies, with new routines and magical effects that will surprise you. In *Confetti* you will meet Francis' new little friend Morocho, and Milo, Alexa's cousin, who will accompany you for an hour of magical challenges that are resolved with more music, more emotions and more magic than ever! *Confetti* proposes a multitude of fantastic disciplines and three main objectives: to make sure you enjoy yourselves as much as possible, to release as much positive energy as possible and to fill everything with confetti and... magic! **The multifaceted artist from Albacete Francis Zafrilla –clown, storyteller, ventriloquist, magician...– has come with one sole objective: to transmit his energy, his art, his joy and his illusion. In everything he does, his personal mark is the technical and artistic quality, the responsibility and effectiveness with which he carries out his projects.**
