We are looking for someone who wants to share... Girls and boys live with their needs fully covered but quite often they feel a little lonely. In *¿Estás ahí...?*, one day, as they go to throw away the rubbish, two girls and two boys meet and start to play simple games together, without the need for objects, or money...but with a great urge to connect.

In *¿Estás ahí...?*, from the darkness of our seats we are going to feel the emotion of the reencounter with our human nature.

La Carpa Teatro has more than thirty years of experience of working with girls and boys. In addition to indoor theatre, we do parades and street entertainment. We have our own drama school (La Inclusiva), where we continue to work with and get to now girls and boys ages 3 to 18.

With a great deal of experience in the treatment of child and youth communication, La Carpa Teatro has bravely chosen to produce *¿Estás ahí...?*, which speaks of solitude, the key issue of our times.
