1.00 h (w/out intermission)

With two decades of experience completed this year, Nacho Vegas, musician and writer, is one of the most respected voices in the field of popular music both in Spain and in Latin America. The latest work by Nacho Vegas, 'Mundos immóviles collapsing', walks between the political experience and the territory of the intimate. The songs, even the most intimate ones, talk about the world, they look at it and you position yourself with respect to it.
