The universe of Vangelis forms an inevitable part of our lives. We all recognise the iconic themes of his scores for film (*Blade Runner*, *Chariots of Fire*, *Conquest of Paradise*). He is also remembered as one of the most innovative figures in the field of ambient research and in the electronic avant-garde. *Universo Vangelis* is a theatrical tribute to the composer and the pioneer, to his capacity to capture emotion in his music. With live Vangelis music, symbolic bodies and visual resources, the show will carry us away on an intense journey to the composer's essence. A theatrical tribute to the human condition in all its dimensions, with its light and shadows, its grandeur and its vileness, as contained in the maestro's musical universe.
